LOON'S BALLOONS

Chapter 1 of Illustrator

In Chapter 1 of Illustrator I used the transform tool to make these emerald green squares to make a continuous circle of square

Chapter 2

My favorite on is chapter 2 was the resturant logo I liked creating a gradient in the and the shadowy look to the text in the back ground

Chapter 3

Also my favorite one in chapter 3 was creating the peppermill. It was very fun to create and also very difficult at the same time but overall it was ok.

Chapter 4

The heart parts was my favorite in chapter 4 I enjoyed putting the star into the spade like object it was cook and neat how I just used the masking tool to create it

Chapter 5

The straight flush is the best one out of chapter 5 I like how you can stack the layers on top of one another to create the actual card game of a royal flush.

ADOBE PHOTOSHOP

your local*
Organic Farmers

Farmers Against Hunger

Chapter 1 of Photoshop

In chapter 1 my favorite project was the cooking project where you had to stack each layer on top of each other put the in the correct order

Chapter 2

**Don't miss
the fun**

Quite an experience

**IN chapter 2 the 4h
billiard project was
simply the same
exact thing to
chapter 1 where
you just stack
layers on top of
each other in the
correct order that
they needed to be
in**

Chapter 3

The sewing box was just using the color range to cut out parts of the sewing box and then stacking every thing on top of the box or behind or in

Chapter 4

Furniture Wizard

The furniture wizard ad was where I had use the opacity button to make the text very transparent to all other text

Chapter 5

The logo for Zenith Design is presented on a dark background with a diagonal split into red and black sections. The word 'Zenith' is in a black, bold, sans-serif font, while 'Design' is in a pink, cursive font. Below this, 'Founded in 2002' is written in a yellow, cursive font, and 'Unique and uncompromising' is in a black, cursive font. The background features faint, glowing circular patterns.

Zenith Design

Founded in 2002

Unique and uncompromising

The Zenith design logo was typing and using the gradient and opacity tool to make the logo and I also used the elliptical

Darby's design

Alphabet Poster

Story characters from Anasi the spider and why mosquitoes buzz

I CREATED THESE CHARACTERS BY SIMPLY SKETCHING THEM OUT THEN SCANNING THEM INTO THE COMPUTER AND USING THE PEN TOOL TO TRACE OVER THEM AND MAKE THEM INTO CARTOONS
